*Nana 101, what a woman you have
been, 101 yrs, all the amazing
things you've done & seen.*

*From daughter to wife, mother,
grandmother and a great one too.
The family you and Popa created &
nourished is a tribute to both of you.*

*So proud to be your granddaughter,
you've shared with me so much,
your stories, our memories & moments,
all laced with your special Nana touch.*

*With all our love around you,
we happily say goodbye, knowing
you are where you should be now,
back in the arms of your guy.*
